Brandt

Whatever today brings.

Brandt

Whatever today brings.

EDITORIAL

Brandt always places people at the heart of its expertise. That is why we designed adapted appliances, whose only goal is:

Facilitate everyday life.

We have developed simple and ingenious technologies that meet all needs: whether on a daily basis or on special occasions.

Simply because the brandt appliances are designed by men.

PRODUCTS TO REVEAL ALL TASTES

ELECTRIC PRESS PISTON COFFEE MAKER

For the first time, **Brandt launches the electric press piston coffee maker.**
Excellence in preparation mode to fully release the aromas and scents of coffee, Brandt coffee maker also allows **to directly heat the water** in the pot, to save time and energy.

INTELLIGENT TOUCH CONTROL

Brandt allows you **to sublimate flavours** of your favourite teas **by adjusting the temperature** to suit your taste and the type of beverage.

TOASTER

Ideal **for grilling and browning of crust**. This toaster will delight all grilled baguette lovers!

RANGE SUITABLE FOR EACH DESIRE

DESIGN
Combining stainless steel, alluring **bright colours** and classy **transparent glass**, this latest Brandt range fits all kitchens.

BREAKFAST SETS
Special attention has been given to the designs of Brandt **coffee makers, kettles and toaster** to better integrate into your kitchen in harmony.

COFFEE MAKER FOR THE CONNOISSEUR

PROGRAMMABLE COFFEE MAKER

Waking up with a good smell of coffee in your house. It's possible thanks to Brandt programmable coffee maker up to 24h in advance.

PROLONGING THE COMFORT

You can enjoy your coffee at any time of the day, thanks to **the thermal carafe** which keeps warm coffee.

CAF100PX INOX

- **Capacity: 10 cups**
- **3 temperature positions:**
  45 - 70 - 90°C
- **Glass carafe**
- **Tank capacity: 1 litre**
- Non-slip backing
- Automatic switch off
- Water level indicator
- Backlit on/off switch
- Thermal safety
- Power: 1,000W
- Packing: 4

CAF1318E BLACK

- **Capacity: 18 cups**
- **LCD screen**
- **Programmable up to 24h**
- **Graduated glass carafe**
- **Tank capacity: 1.8 litre**
- Non-slip backing
- Anti-drip
- Automatic switch off
- Homogeneous water spraying
- Water level indicator
- Backlit on/off switch
- Thermal safety
- Power: 1,000W
- Packing: 4

ELECTRIC PRESS PISTON COFFEE MAKER

THE EASIEST WAY TO MAKE THE TASTIEST COFFEE!

- The greatest advantage of the coffee plunger is its ability to brew ground coffee in **a way that produces an even distribution of aromas** without too high a concentration (as in an espresso).
  Thanks to the pressure exerted by the plunger, **you can savour the most authentic coffee** tastes!
- Now, **you no longer have to heat the water separately!** Brandt presents the coffee plunger with integrated water heater, to save you time and energy. With **temperature adjustable from 45°C to 90°C**, there's no more risk of boiling your coffee.
- It's practical, with a **10 cups capacity** that means that all of your guests can enjoy coffee from one service.
- Its **elegant stainless steel design** will suit any kitchen.

Step 1: pour water into the reservoir up to the required level, then replace the lid with the plunger fully raised. Press the ON button, select your required temperature and the water will start heating.

Step 2: when the water is at the correct temperature, remove the lid and pour the coffee into the reservoir. Replace the lid and allow the coffee to brew for at least 4 minutes before slowly pushing the plunger down.

Step 3: the pressure from the plunger separates the coffee grains from the liquid, leave the plunger fully depressed and pour your coffee.

Programmable coffee maker

COFFEE ESSENTIALS!

- This **feature will allow you to program** your coffee **up to 24 hours in advance**.

- Thanks to **the large capacity jug**, you can serve up to **18 people** at once!

- For a more intense coffee, it is able to better allow **water to permeate** the coffee grounds and spread the **aroma of the coffee perfectly within a brew**.

- With **anti-drip system**, even in full preparation of coffee you are able to serve your coffee at any time.

CAF2012XT   INOX

- **Capacity: 12 cups**
- **Thermos carafe**
- **Tank capacity: 1.25 litre**
- Non-slip backing
- Anti-drip
- Automatic switch off

Smart kettles that have control over the hot water!

TEA LOVERS WILL BE IN LOVE WITH THE ADJUSTABLE TEMPERATURE

- **Smart Control**: you can select the desire temperature (40°C and 100°C) at an increment of 5°C depending on your taste and the type of beverage. 6 preset for a good result (75°C green tea, 85°C – black tea, 90°C – coffee, 95°C – herbal tea, maintaining the warm at 70°C and boiling at 100°C).
- **Accuracy**: water temperature is shown on the digital display or the touch slider.
- **Functionality**: the anti-slip base and 360° swivel allow you to manipulate very easily. And thanks to the new litre tank, you can prepare the right amount of water.

B01705S WHITE AND SILVER

- **Tank capacity: 1.7 litre**
- **Switch ON/OFF on the handle**
- Anti-limescale filter
- Hidden heating element

- Removable limescale filter
- Integrated heating element
- Thermal safety cut-out
- Cable reel
- Power: 2,200W
- Packing: 4

Tip: to keep your teapot immaculate at all times, remember to clean it with water with a low mineral content.

New: the electric smart teapot

TO PREPARE TEA AS IT SHOULD BE PREPARED!

- This is a smart product with **two functions**: it allows you to brew your tea directly in the kettle thanks to the **removable stainless steel strainer**.
- Every tea has its own temperature! It is **programmable** and allows you to manually adjust the water temperature from 50°C to 100°C in 5°C segments. As such, "tea addicts" can make green tea at 75°C, black tea at 85°C and herbal teas at 95°C.
- The **1.7 litre capacity (8 cups)** is ideal for tea time with friends or breakfast with the family.
- Chic and elegant, this teapot **has a Schott® glass body (resistant to high temperatures)** and is **illuminated in blue** during operation.

SLJ200 BLACK AND GREEN

- **Tank capacity: unlimited**
- **Pours directly into the glass**
- **Touch sensitive control panel**
- **Protective cover**
- 2 stainless steel filters, 2 filling tubes
- 2 outputs: one for juice, one for waste (skin, pips, etc.)
- 2 containers (1 litre and 0.8 litre)
- Reverse function for blockages
- Anti-drip system
- 1 cleaning brush
- 67rpm
- Power: 200W
- Packing: 2

Juice Extractor

THE ESSENTIAL FOR HOME MADE JUICES!

- Unlike a standard blender, **the juice extractor spins at low speeds** (67rpm) in order to press the fruit for longer, at cold temperatures and in a gentler fashion. As such, **the maximum amount of juice** is extracted with more vitamins (especially A and C) and less froth. Everything you need for extra pulp!
- Practical, it is supplied with **2 different size filters** to prepare juice the way you want, with or without pulp.
- The **two output trays** allow you to retrieve the juice on one side and waste on the other (pips, skin, etc.).
- Easy to assemble and disassemble, **the parts of the device** are all removable and **can be washed under the tap or in the dishwasher** for easier cleaning!
- The **touch sensitive control panel** allows you to navigate through the devices different functions with ease.

"Stop" button

"Juice" button for juicing just one fruit or vegetable

"Mix" button for juicing just several fruits or vegetables

"Reverse" button for running the motor in reverse in case of blockages

PAI-40V WHITE AND GREEN

- **Pours directly into the glass**
- **2 cones for citrus fruit of different sizes**
- **Protective cover**
- **Stainless steel sieve**
- Non-slip feet
- Compartment for cable storage
- Lid opens on the handle
- 360° base
- Easy cleaning in dishwasher
- Anti-drip system
- Power: 40W
- Packing: 6

Elegant and colorful juicer

- Compact and well thought, this juicer is ultra-convenient with its **anti-drip system** and its various **elements that go in the dishwasher**!
- Clever, the **double cone** allows to squeeze citrus **fruit of different sizes**, and to prepare lemon juice as well as orange juice.

GP2000EW   WHITE AND SILVER

- Suitable for any type of bread
- 2 slots 25 x 3.7cm
- Electronic adjustable of toasting time (red LED)
- Baguette toasting function
- Reheating and defrosting function

AVAILABLE EARLY IN 2017

Let your pastry machine help you

REALISE ALL YOUR DESIRES!

You can use it in three ways.

- **In "standard" mode,** it offers six operating speeds and pulse function with the option of adjusting the mixing time. In this mode, the whisk, dough hook and flat beater allow you to make whipped cream, cookies and even homemade bread dough! The cook function is not activated.
- **In "expert" mode,** control the cooking by adjusting the time and temperature yourself. Your cooked recipes are made to order!
- **In "automatic" mode,** nine traditional recipes have preset programmes: beef bourguignon, blanquette de veau, risotto, spaghetti bolognaise, soup, béchamel sauce, rice pudding, chocolate fudge, custard. Simply follow the instructions in the recipe book to delight the whole family.

Time can be adjusted from 0 to 180 minutes: to the second up to 9 minutes 59', to the minute from 10 to 30 minutes and in 5 minute segments above that.

The temperature can be adjusted to one degree from 30°C to 140°C.

It comes with **its own recipe book**, illustrated with the accessories needed for each recipe (15 recipes in "standard" mode, 21 recipes in "expert" mode and the nine traditional recipes available in autoprogramme).

5 functions for this new vacuum sealer

- **Sealing:** adapt to your needs by sealing your bags according to the size of the contents.
- **Vacuum + seal bags:** keep longer your food thanks to 2 rolls of bags supplied and the bag vacuum and seal function.
- **Create a vacuum in each of the boxes** supplied with the vacuum sealer.
- **Create a vacuum in a bottle:** keep open bottles of wine for up to 10 days with our vacuum sealing cork!
- **Marinate meat or fish:** This function "marinade" is done in record time. Rather than generally expect overnight in the refrigerator, an up-and-coming air for 30 minutes in the box allows to accelerate the opening of food pores; the flavors permeate in only 30 minutes.

SAC-28R   TRANSPARENT RESIZABLE

- **Rolls of food bags**
- **2 rolls of 5 meters**
- **Washable and reusable**
- **Width 28cm**
- Compatible refrigerator, freezer, microwave and water-bath
- Packing: 4

Why use vacuum sealer?

- **For healthier cooking:** vacuum sealer allows you to lock in all of the nutritious elements of foods and needs no additives.
- **To save time:** prepare food in advance and vacuum sealer them to save you trips to the shops!
- **Save money:** foods can be stored up to 5 times as long, which reduces waste. Don't throw it away! Use vacuum sealer.

A little bonus: vacuum sealer cooking helps preserve their taste!

EXEMPLARY COOKING QUALITY

COOKING EXPERTISE

Brandt, with its **expertise in built-in cooking** offers a **full range of small domestic cooking appliances** that also delivers its good quality and performance.

Excellence cooking method. Induction technology with **10 heating powers** that are easily accessible on the induction hobs provides the **same efficiency and accuracy as professional** hobs that give you a peace of mind with the safety packs in place.

TASTE THE DIFFERENCE WITH CIRCULATING HEAT
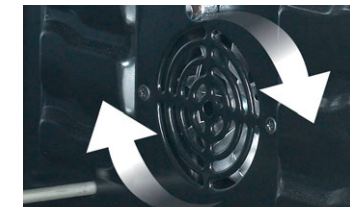

Available in the ovens, **the circulating heat diffuses temperature evenly throughout the oven cavity.** This process allows even cooking while presenting the texture of the meat, as well as the fragrance and flavor.

AESTHETIC PRODUCTS FOR AN OPTIMAL EFFICIENCY

INDUCTION HOBS

To ease your daily life and save time, most of Brandt induction hobs have a **full glass surface of a sensor button with slider** and **a booster function.** You can now cook like a chef and clear your dishes in a wink of an eye.

FREE STANDING OVENS

Sleek designs to match the current trends in **kitchens soft sensitive touch controls, full glass doors, non-stick cavities.** The range of Brandt mini ovens was designed to fit your needs and supporting you in your daily life.

PLANCHA

Brandt plancha will put a little bit of sun in your meals! Its non-stick plate will be efficient for meats, fishes or delicate dishes. A healthy coating which doesn't require to add fat.

A FRIENDLY RANGE TO ENJOY IT IN FAMILY AND BETWEEN FRIENDS

A FASHION DESIGN

With their **elegancy and their bicolor look,** our raclette and fondue kits and our crepe appliances will delight your dinners.

FOR EFFICIENT MEALS

Thanks to our appliances **heat power,** nobody will wait his turn to feast. This range will adapt to **everybody and to all desires!**

EASY MAINTENANCE

Most of our raclette and fondue kits are **removable and adjustable for the dishwasher for an easy maintenance.**

" Thanks to its **silk-screened cooking guide** on the door, you will have all the information you need to cook your dishes. "

- Packing: 4

INDUCTION

AN ACCURATE COOKING

Thanks to the induction technology, the cooking hob generates heat exclusively on contact with cookware through a phenomenon of "induced" current produced in the bottom of this cookware, which instantaneously raises its temperature. This heat is then transferred to the food, which is simmered or are seared depending of your settings.
